Mawson Set to Join Broad-Market Russell Microcap® Index at Conclusion of 2023 Russell Indexes Annual Reconstitution

Sharon, PA — May 31, 2023 — Mawson Infrastructure Group Inc. (NASDAQ: MIGI) (“Mawson” or the “Company”), a digital infrastructure provider, is set to join the broad-market Russell Microcap® Index at the conclusion of the 2023 Russell indexes annual reconstitution, effective after the US market opens on June 26, according to a preliminary list of additions posted May 19.

Membership in the Russell Microcap® Index, which remains in place for one year, means automatic inclusion in the appropriate growth and value style indexes. FTSE Russell determines membership for its Russell indexes primarily by objective, market-capitalization rankings and style attributes.

Rahul Mewawalla, CEO and President, said, *“We look forward to being added to the Russell Index. It is an exciting time for the Company, and our incredibly talented and innovative team, as we continue to capitalize on the opportunities ahead for the Company. We look forward to sharing updates with our institutional and retail shareholders about our progress and also look forward to meeting new shareholders during our investor events and conferences in 2023.”*

Russell indexes are widely used by investment managers and institutional investors for index funds and as benchmarks for active investment strategies. Approximately \$12.1 trillion in assets are benchmarked against Russell's US indexes. Russell indexes are part of FTSE Russell, a leading global index provider.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

Mawson cautions that statements in this press release that are not a description of historical fact are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements may be identified by the use of words referencing future events or circumstances such as "expect," "intend," "plan," "anticipate," "believe," and "will," among others. Because such statements are subject to risks and uncertainties, actual results may differ materially from those expressed or implied by such forward-looking statements. These forward-looking statements are based upon Mawson's current expectations and involve assumptions that may never materialize or may prove to be incorrect. Actual results and the timing of events could differ materially from those anticipated in such forward-looking statements as a result of various risks and uncertainties, which include, without limitation, the possibility that Mawson's need and ability to raise additional capital, the development and acceptance of digital asset networks and digital assets and their protocols and software, the reduction in incentives to mine digital assets over time, the costs associated with digital asset mining, the volatility in the value and prices of cryptocurrencies and further or new regulation of digital assets. More detailed information about the risks and uncertainties affecting Mawson is contained under the heading "Risk Factors" included in Mawson's Annual Report on Form 10-K filed with the SEC on March 21,

2022, and Mawson's Quarterly Report on Form 10-Q filed with the SEC on August 22, 2022, and in other filings Mawson has made and may make with the SEC in the future. One should not place undue reliance on these forward-looking statements, which speak only as of the date on which they were made. Because such statements are subject to risks and uncertainties, actual results may differ materially from those expressed or implied by such forward-looking statements. Mawson undertakes no obligation to update such statements to reflect events that occur or circumstances that exist after the date on which they were made, except as may be required by law.

¹Assumes all equipment deployed and 100% online, plus the construction of all contracted sites on time, actual results are likely to vary in a negative manner. Construction delays are common and it is rare for all equipment to be deployed and 100% online, however accurate historical downtime averages are difficult to calculate and also may not provide an accurate picture due to differences moving forward. Investors should consider all risk factors related to uptime when considering these figures, which are a best case scenario.
